There will be two eclipses of the sun and two of the moon this year. A total eclipse of the sun will take place on the 5th of April, and an annular eclipse on the 28th Sept., both invisible here. There will be a partial eclipse of the moon on the 20th April, which will be visible early in the worning, and a similar eclipse on the 13th Oct., which will be visible in the evening.

Great indignation is manifested by the people of Florids, on account of the recent murders committed by the Seminole Indians, and a firm determination to have the savages either respoved or exterminated. A public meeting was held at Tampa, on Sunday, the 23d ult., and the following resolutions adopted:

Resolved. That we recommend that the people of this State submit to no trace or compromise with these Indians, until the last one is ejected from our territory.

Resolved. That we recommend to the citizens of this county, to organize two or more companies of volunteers, and tender them to the proper authorities, to be used for the protection of the frontier and the prosecution of the war.

Donald MacLeod, formerly editor of the Banner, in this city, is lecturing in Louisville. The subject of his first lecture was "The Light of the Dark Ages." The Louisville critics think he gave that period of the world's history oredit for too much light.

Col. Mannypenny, the Commissioner of Indian Affairs, in his annual report, makes many suggestions looking to the improvement of the Indian race. The evil effects of the payment of annuities, in cash, to the Indians, are referred to, and the fact that the greater portion of the money finds its way into the pockets of the white men engaged in selling liquor and gambling, to the great detriment of the morals of the aborigines, is strikingly set forth.

One of the most disastrous effects of the present war is the increase of pauperism in England. The Manchester (England) Exam iner, one of the ablest provincial papers, says, the number of paupers in that city alone, is 50 per cent. in 1855 above the number in 1854. The Swabian Mercury contains the following

from Frankfort: "The fortune of Baron Anselm de Rothschild, who secently died, has been valued at forty to fifty millions florins. A sum of 1,200,000 florins is destined to continge the aims which the deceased was in the habit of distributing every week, as well as for the distribution of wood to the poor in the winter. The fund for giving a dower to Jewish maidens receives 50,000 florins; the fund for the sick as well as the Jewish Hospital, 10,000 florins each. The Jewish school 15,000. Sums of 3,000 florins are bestowed on several Ohristian establishments. The clerks who have been more than 20 years in the firm receive 2,000 florins; the others 1,000; the juniors from 300 to 500 florins. Many legacies are left to servants."

London is now the greatest city in the world, and far surpasses all the great cities of antiquity. According to Gibbon, the population of ancient Rome in the height of its magnificence was 1,200,000; Nineveh is estimated to have had 600,000; and Dr. Medhurst supposes that the population of Pekin is about 2,000,000. The population of London, according to recent statistics, is 2,500,000-414,722 having been added to it during the last ten years. The census shows that it contains 307,722 inhabited and 16,889 uninhabited houses.

The National Intelligencer has been furnish ed from the Patent Office with the subjoined interesting approximate estimate of the agricultural products of the United States for the year 1855, made up from the most authentic accessible data by D. J. Browne, Esq., the efficient Superintendent of the Agricultural division of the Bureau. It may be here stated that if there be any error in the estimate it is in falling below rather than above the truth, either in the quantity or value of the products.

The voters of Louisville will be called upon in a few days to decide whether that city will anhacribe an additional million of stock to the completion of the Louisville and Nashville Railroad. The papers of that city seem to be confident the question will carry,

\$1,000 for the American College in Rome. Macaulay, twenty years since, after giving in an article on history, his idea as to what it should be, concluded by saying that a history thus written, would have a greater run than the latest novel. He lived to verify his prediction in his own case. Nothing from the pen

of Dickens or Thackersy, was ever sought

with so much avidity as this brilliant essayist's first two volumes of the History of England. A correspondent of the London Times, in commenting upon the progress of Irish agriculture, states that during the past 18 years the value of farm stock in Ireland has increas ed from \$22,000,000 to £35,000,000 sterling, and that the number of horned cattle has riven from 2,000,000 to 3,250,000, while the quantity has correspondingly improved. Still, however, of the 20,000,000 of acros which Ireland comprises, only about one fourth is under direat tillage, and full one third is in pasture.

FRIDAY, JANUARY 18, 1856 The Patriot is the successor of the "True Whig," desara. Sarra, Mozoan & Co., having purchased the print-

ing materials, subscription list, &c., of the latter. 1-17 We are compelled to throw aside more interesting matter to day; to make room for gation of Tennessee River. Lies over. legislative proceedings, which have accamulated in our "copy drawer."

Retaliatory Measures.

The House of Representatives yesterday refused to reconsider the vote adopting the resolutions of Mr. Cavitt in regard to a nullification of the fugitive slave law. The vote was, ayes 34, noes 38. This resolution, it will be remembered, recommends the people of l'ennessee not to trade with the citizens of any State that has refused to carry out the provisions of the fogitive slave law. In regard to the said tunnel. the policy of adopting such a resolution, we expressed ourselves at the time of its adoption. We have only to add now, that, we have too much confidence in the conservatism and good sense of the Senate to believe that body will sanction the action of the majority of the House and place Tennessee in the very ridiculous attitude she would occupy with such a resolution upon the journals of her Legislature, while her people would pay about as much regard to its recommendations as they would to the voice of the idle wind.

The Hon. WM. A. COCKE, Senator elect from the district composed of the counties of Anderson, Campbell, Claiborne and Grainger, in the place of Charles Hitch, Esq., resigned, took his seat yesterday. Col. Cocke beat his Democratic competitor (Col. James Lafferty,) almost two to one. He is one of the first men in his district, and will make an able and efficient Senator. We are pleased to learn that he is uncompromisingly opposed to the plausible humbug which is now before that body under the name of "Law Reform." That measure will now meet the fate it deserves.

City Improvements.

We made mention a few days ago of Evans & Co.'s new store, which has just been completed on the Square. It was our intention, at the time, to recur to the subject of improvements in the "town we live in," and to continne the record. We threfore resume the thread of our discourse this morning. Having passed over to the east side of the Square, we observe that our liberal and enterprising mercantile friends, A. J. Dunoan & Co., are making considerable improvements in the other purposes. [Defines the responsibilities of interior arrangements of their house, under the railroad companies in regard to conveying slaves.] superintendence of G. B. VANNOY, architect. These improvements are in a state of forwardness which insures their completion pri or to the opening of the Spring trade. They are of a character that will give the store an entirely new appearance, and make it one of the most roomy, and tastefully and elegantly arranged to be found anywhere. It is the purpose of this firm to import for the Spring trade a very large stock of goods, embracing every thing that can find sale in this market, and the improvements to their store will give them greater advantages than they have heretofore possessed, to exhibit their goods, and to supply of slaves; rejected, and motion to reconsider enthe demands of their customers with celerity. A portion of their stock is already on its way ere; and in the interval between this and the ommencement of the spring sales, they are lling the remnant of their winter stock at xtremely low prices. Amongst this stock are heavy lot of blankets of the best kinds. Adjourned to 9 A M. to-morrow. On Market Street, between Church and

troad, we note the completion of the fine lock of stores with which John M. Hill, Esq., as replaced the inferior ones burnt some time go. These stores are put up in a most subantial manner and are creditable specimens of HAFFER's brick work. They are handsomely rnamented in front. One of them is to be coupled by STEWART & Owen Tinners, and the ther two have been taken by Messrs Leil-ETT & EWING, Wholesale Grocers, whose in ustry and energy are extending their business

On Broad Street the house occupied by lessrs. McCrea & Terrass, Wholesale Groers, has been greatly enlarged and improved; nd it is now one of the most capacious in that did quarter of the city.

These, together with other improvements, which we have no room to specify to-day, inicate that there is no pause in the march forard of Nashville. Her's is no mushroom rowth-it is slow, but steady and substantial; nd it must continue so. Her business prosects were never more encouraging-her hopes f future greatness, never based upon a more aduring foundation. More anon.

Mr. Atkins spoke in depreciation of the course oursued by the Senate in regard to Internal Improvement-alluding particularly to the passage of he bill yesterday granting State aid to the amount of \$610,000 to various railroad companies, and deviating materially from some of the fundamental principles and most important safeguards of the general Internal Improvement laws. Though he could not vote for the bill before the Senate, he could not conceive how Senators who had supported the bill yesterday could refuse to support this.

Mr. Fletcher spoke in explanation of his course in voting for bills to promote the Internal Improvenents of the State. He had done so always upon the principle that he was acting for the best interests of the State. The bill passed yesterday contained no feature applying to the Senatorial District which he had the honor to represent, nor to the Eastern Division of the State. Yet he voted for it as a Tennesseean-as a representative of Tennessee-and he believed he had acted for the best interests of
